Key Features

Optimized profiles
With optimized profiles, you can convert DVD Movie to Pocket PC or any other MP4 player or format only one click

External codec Support
Our program can use external codec's power feature to optimize the output video quality

Vob Scan support
With vob scan support you can open ifo file's or rip your vob file to any video format

Suited for both veterans and beginners:
If you are a veteran, you will find there are so many options you can set, if it's the first time you rip DVDs, you don't have to consider these options, just use default settings and rip DVDs in a few clicks.

Super fast speed:
it full supports Intel Pentium D Dual-Core Processor and AMD Athlon 64 X 2 Dual-Core Processor which ensures full use of your CPU.

All-In-One:
All encoders/decoders are built-in and you can convert all formats once downloading it, no other software needed.

Rip at will:
You can rip entire DVD movie or just one or several chapters;

Easy-to-use interface:
Most functions can be called up with a simple mouse click or menu selection. You can conveniently make skins for isoft DVD Ripper through our color scheme system.

Flexible setting:
It is able to automatically detect the input video formats and then set the application's parameters for the best possible performance. The default parameters work in most cases, but you can change them easily to best suit your needs
