With using DVDZip Lite, you are allowed to rip DVD audio tracks to all popular audio formats such as MP3, WAV, WMA, AAC, OGG, RA, MPC , Flac formats with easy process and super fast speed. No more multiple programs, no more complex progress.

Key Feature

- Suited for both veterans and beginners:

If you are a veteran, you will find there are so many options you can set, if it's the first time you rip DVDs, you don't have to consider these options, just use default settings and rip DVDs in a few clicks.

- Dolby surround enabled.
- Newly added Bitrate Calculator allows you to customize output file size for rip DVD audio;
- Support preview:

You can preview the movies before you begin ripping them, even you can watch the movies at the same time when you are ripping DVDs.

Note: There is no sound when you are ripping DVDs.

- Supports ID3 tagging:
- Support batch conversion:Select all files you want to rip and DVDzip Lite will automatically copy them one by one.
- Rips from specified start time to end time
- Provide >150% DVD audio rip speed to rip audio from DVD, so fast DVD audio extractor beyond your imagination.
- Automatically shutdown computer after conversion.
