Why choose Tipard Blu-ray to MKV Ripper?

- Convert Blu-ray and DVD to MKV
- Convert video and HD video to MKV
- Automatically decrypt protected Blu-ray discs
- Put playlist together with BD movie
- Trim, crop, merge, and watermark your video

Tipard Blu-ray to MKV Ripper can rip Blu-ray to MKV format and remove the AACS/BD+/MKB V18/MKB V19/MKB V20/MKB V24 copy protection from BD. Moreover, you can rip general DVD files to MKV. This Blu-ray to MKV Ripper can also serve as a MKV video converter to convert other video format to MKV. And you can extract audio from video and Blu-ray Disc. Also you can edit your video at will with the powerful editing functions. Plus, with newly adopted NVIDIA® CUDA™ technology and multi-core CPUs supporting technology, the converting speed is 6X faster now.

Key Features

Rip Blu-ray to MKV
Tipard Blu-ray to MKV Ripper supports ripping Blu-ray movies to MKV and other video format, and decrypting protected Blu-ray discs. And you can also rip general DVD to MKV.

Convert video to MKV
The MKV Video Converter enables you to convert any popular video format to MKV and HD video.

Rip Blu-ray movie to audio
Tipard Blu-ray to MKV Ripper enables you to extract audio from Blu-ray Disc.

Video trimmer and merger
These two tools enable you to trim any segment of a video and join video clips together as a whole one.

Video cropper
Tipard Blu-ray to MKV Ripper offers you this tool to help you crop video frame on playing area and aspect ratio.

Frame watermarker

Allow you to add a text/image watermark to your video with the powerful watermarker.

Video effect adjuster
The video effect, such as contrast, brightness, and saturation, can be regulated.

Audio track and subtitle
If your Blu-ray Disc provides you with more than one audio tracks and subtitles, you can select one.

Profile choosing
You are allowed to choose profile from the drop-down menu for the output video.

Load BD playlist
You can put the Blu-ray Movie playlist together with the converted video to figure out the play order.

Further settings
More settings, such as Video Encoder, Frame Rate, Video Bitrate, Resolution, Audio Encoder, Sample Rate, Channels, Audio Bitrate, are provided for you to adjust.

Give you 6X faster converting speed
The newly adopted NVIDIA® CUDA™ technology can totally accelerate your PC GPU, so as to finish your converting task with ultra-high speed and best output quality.
This Blu-ray ripper also supports multi-core CPUs, which can take full advantage of your PC power to accelerate the converting speed.

Batch processing
Tipard Blu-ray to MKV Ripper enables you to convert the same Blu-ray Disc to different formats with only one conversion.

Video previewing function
You are able to preview the input and output video through the built-in player.

Intuitive interface
The intuitive interface can make the operation much easier. And it is suitable for both beginners and advanced users.
