Including **iPhone Ringtone Maker**, **DVD to iPhone Converter**, **iPhone Video Converter**, and **iPhone Transfer**, 4Media iPhone Software Suite is especially packed for iPhone fans. This iPhone software pack provides you with all the functions of DVD to iPhone ripping, iPhone video converting, iPhone backup and transferring, and iPhone ringtone making. 4Media iPhone Software Suite supports all popular video and audio formats, and all types of iPhone including the latest iPhone firmware 2.x, iPhone 3G and iPhone 3GS.

In addition, more features are added in this iPhone software package to upgrade your iPhone life: producing video from pictures, extracting the favorite DVD/video segment, searching the wanted iPhone files quickly, managing iPhone as portable hard disk, and so on.

So powerful and all-around! 4Media iPhone Software Suite will definitely bring you more convenient and flexible iPhone life.

## **Key Functions**

### **Make M4R iPhone ringtone from any video/audio**

An iPhone ringtone maker and uploader to create your own M4R iPhone ringtone by converting any video/audio file and upload it to iPhone directly without iTunes if you need.

### **Rip DVD to iPhone video/audio**

A DVD to iPhone ripper and converter to put your favorite DVD movie and music on iPhone with high quality by converting DVD to iPhone MP4 video and iPhone MP3, M4A, WAV audio.

### **Convert various videos/audios to iPhone videos/audio**

An iPhone video converter to convert other video to iPhone video, like AVI, MPEG, WMV, VOB, 3GP to iPhone MP4 video, and convert any audio to iPhone audio, like WMA, OGG, M4A, AC3 to iPhone music.

### **Transfer files from iPhone to PC/iTunes, PC to iPhone**

An iPhone video transfer and iPhone content manager to transfer iPhone files to PC or iTunes for backup and sharing, copy files from PC to iPhone.

## **Key Features**

### **Multi-core CPU, high conversion speed**

Support multi-core technology and process your DVD ripping or video converting task with all the cores to get higher conversion speed than ever before.

---

## **Support a wide range of video/audio formats and the latest iPhone**

Support most of popular video/audio files including AVI, MPEG, WMV, MOV, MP4, RM, RMVB, DivX, ASF, VOB, 3GP, WMA, OGG, RA, AC3, APE, etc. as source, and all iPhone types including the latest iPhone firmware 2.x, iPhone 3G and iPhone 3GS.

## **Split file and pick up segment**

Split DVD movie or video into several parts to fit iPhone, and pick up the desired part from the source file for converting to iPhone video/music/ringtone.

## **One source and multiple targets**

Output iPhone MP4, MP3, WAV, and M4A files from one source at one click to fit different demands.

## **Customize output file according to your need**

Customize the output file size with Bitrate Calculator, and modify the output parameters (like video resolution, bit rat, frame rate, audio sample rate, etc.) to output the right file you need.

## **Use iPhone like a portable hard disk**

Open iPhone with Windows Explorer and use it as a removable, portable hard drive to take full advantage of your iPhone.

## **Manage iPhone files easily**

Support viewing music/videos/photos in two modes, searching the files you want with filter or quick search, and creating/editing/deleting playlists in iPhone to manage iPhone files as easily and conveniently as iTunes.

## **Easy to Use and batch conversion**

User-friendly interfaces make DVD ripping, video converting, file transferring so easy just with a few clicks. And the support of multithreading and batch conversion saves your trouble and time.
