As its name suggests, the **Alive Zune Video Converter** is a powerful video to zune converter software, and can be use to convert popular video to Zune or MPEG-4 format that can be played on Microsoft Zune Player. It is capable of converting DivX, XviD, MPEG, MOV, MPG, MOD, QickTime, MP4, 3GP, 3G2, SWF, GIF, DV, MJPEG, VOB, WMV, ASF, AVI to Zune or MPEG-4 video format. The Alive Zune Video Converter's built-in encode/decode engine can offer you the fastest conversion speed, and allow you to handle all popular video formats. On the plus side, Alive Zune Video Converter provides the ideal way for you to convert video to DivX, XviD, MPEG or MP4 video formats, or convert your various videos to MP3 audio format to be played your Zune Player.

Where the Alive Zune Video Converter really shines is in what it's completely integrated into Windows Explorer, this is cool to be able to right-click on video files to convert video to Zune with only 2 clicks. Finally, the intuitive interface makes Alive Zune Video Converter the perfect tool for both new and experienced users. Some advanced and completed methods are provided. For example, command line, schedule conversion, convert in batches, drag-drop to load and add video files to convert, etc.

Key Functions

Convert Video/Movie to Zune MPEG-4 format

Convert most popular video/movie files like MP4, DivX, XviD, MPEG, MPG, MOD, ASF, MOV, QT, 3GP, 3G2, WMV, VOB, and AVI to zune format supported by Microsoft Zune Player.

Convert video to MPEG-4 format

This program is also a MPEG-4 converter, and allows you to convert your digital video/movie to MPEG-4 or MP4.

Convert video to MP3 audio format

It allows you to extract audio track from video, and convert your video to MP3 which can be played on zune player.

Key Features

Generate Zune video formats

Convert your favorite video to zune format that can be played on zune, such as AVI to Zune or WMV to Zune, or MPEG to Zune, ect....

More settings

You can set parameters of the video and audio, such as video size, bit rate, or frame rate, etc... You can also use the default settings.

Converting in batches

Support converting multiple files at one time, and allow you to load all video files, then click "Convert" button to convert them at one time.

Righ click to convert

It is integrated into Windows Explorer, so you can finish a conversion with only 2 clicks, and without launching any video converter in advance!

Schedule converting supported

You can load all the videos you want to convert, and then set a schedule to convert them in the midnight.

Support drag-drop

You are able to drag-drop to load video files, just drag the video files to the icon or main interface, the conversion will be started automatically.
