Any DVD Converter for iPod and iPod Video Converter is the easiest-to-use and powerful iPod Video Converter for Apple iPod Movie and iPod Video. This free iPod video converter can convert all types of video files (avi, divx, xvid, flv, x264, vob, mpeg, DVD's, YouTube, etc.) into the proper video formats (MPEG-4, H.264) that play on the iPod. It is also a powerful DVD to iPod Converter due to the conversion speed is far faster than real-time. With iPod DVD Converter you can convert videos for any type of iPod that plays video. This includes the new iPod touch, iPod nano and iPod classic in addition to the 5th generation iPod. You can also convert videos for the iPhone.

Key features

- Convert DVD movie to iPod video format MP4 and put DVD on iPod;
- Rip DVD to iPod audio formats MP3, AAC, M4A and put DVD on iPod;
- Allows you to select target subtitle and audio track;
- Supports preview. You can see the ripping progress in preview window;
- Select the proper resolution, bit rate, sample frequency, and frame rate to get an ideal export.
- Supports batch processing, eliminating time consuming single conversion.
- All encoders and decoders are built-in.
- Direct convert DVD to iPod. (Some other software will convert DVD to avi, then convert avi to iPod, that waste lots of time. We only need one step, direct convert DVD to iPod.)
- Support almost all kinds of DVD to iPod Movie / iPod Video format (MP4 format)
