Digital Video Express (DivX) is a digital video compression format based on the MPEG-4 technology. DivX files can be downloaded over high-speed lines in a relatively short time without sacrificing the quality of the digital video. Often used on the Internet to exchange video files. Originally developed for DVD encoding (650 mb = 80-90 min. at 640x480, standard bitrate), DivX has become the internet video format of choice for high-quality productions.

Aplus DivX to iPhone converter is a tool to convert DivX to iPhone video format, Aplus DivX to iPhone converter is the professional and good convert software, with it you can convert your favorite DivX videos to iPhone video format that your iPhone understands.
