DVD SlideShow

Produce professional-looking DVD movies featuring your own photo slideshows and videos.

With simple step-by-step design, DVD SlideShow helps you create professional-looking DVD movies featuring your own photo slideshows and home videos. You can burn them to discs for easy sharing with family and friends.

Key Features

Three steps is all it really takes for you to make your very own DVD movie. Add your content, design your movie menu, and burn your disc. Its that simple. Plus, check out all the extra features:

- Create photo slideshows complete with transitions, music, and text
- Choose from over 50 professional menu background designs
- Apply any photo or graphic as a menu background
- Import video files
- Add professional "Pan & Zoom" effects to your slides
- Use MP3s as background music for menus and slideshows
- Position menu buttons and text anywhere on the menu
- Make DVDs and VCDs for playback on TVs and computers
- Touch up, crop, and add text to the photos in your slideshows

Requirements

- Windows 2000/XP/Vista
- Pentium III 450 processor or equivalent (PIII 700 recommended)
- 200 MB free hard disk space (1 GB recommended)
- 128 MB RAM (256 MB recommended)
- 16-bit color display at 800 x 600
- DirectX 8.1 or above
