### Why choose ArcSoft MediaConverter?

- Convert videos, audios and photos to popular formats
- Rip video and audio from DVD/AVCHD and transfer to device
- Convert 2D videos and photos into 3D formats
- One click to download, convert and transfer online video to device
- Easy-to-use video editing functions
- Preview and export videos with subtitles

### **Good news!** ArcSoft MediaConverter 7 can support 2D to 3D.

**ArcSoft MediaConverter 7** is a powerful and easy-to-use all-in-one multimedia file converter.. With **ArcSoft Sim3D**, you can easily drag and drop 2D videos and photos into MediaConverter 7.5 and choose a 3D output format to convert 2D multimedia files to 3D. Simple video editor: Perfect the video before transfer perform a quick trim, adjust video speed, enhance video with dynamic-lighting or de-noise options, apply video effects and so on.

**ArcSoft MediaConverter** can Increase audio volume up to 5X with Automatic Gain Control (AGC). Adjust the converted music and video to the same volume level with Audio Normalization. Select the sound track that you want for a video file while playing or converting. AVI, MKV, VOB files are supported.

also, **ArcSoft MediaConverter** Supports Intel Quick Sync Video technology on Intel's 2nd generation Core Processor- Sandy Bridge to accelerate file conversion speed and convert batch videos in minutes.

### Key Features

#### **Plays All Media Files; HD & 3D Supported**

Rip video or audio files from your favorite DVD and AVCHD or movie, transfer to your device, and go! More portable devices are supported in the newest version, including HTC EVO 4G, iPhone 4, iPad, Nexus one, Android phone, Nokia phone, and many more.

#### **Simple and easy-to-use video editing**

Provide practical and easy-to-use editing functions like trim, dynamic-lighting, de-noise, color adjustment; allow you to adjust the video clip speed, mute sound of the video, and apply various video effects (Black & White, Sepia, Old Movie, Sketch, Sharpen, etc.).

#### **1-click to download, convert and transfer online video**

Use MediaConverter 7.5 in conjunction with ArcSoft Video Downloader™ 3, a free application

---

to help you download and share videos to popular video sharing websites. Download and transfer your favorite videos and convert them into different formats you want with just a few clicks.
