-------------------	---

Have you ever dreamed of watching movie clips in Blackberry at your leisure? **AVCWare BlackBerry Video Converter** is the perfect choice.

It can convert video and audio files to your BlackBerry movie and music format. The media formats that can be converted by this BlackBerry Video Converter include: AVI, MPEG, WMV, MOV, MP4, RM, RMVB, DivX, ASF, VOB, 3GP, etc. Video conversion to Blackberry is done with a simple, intuitive interface.

AVCWare BlackBerry Video Converter also possesses strong editing functions and rich settings for better Blackberry video experience. This BlackBerry Video Converter provides you with a wide variety of video editing functions such as video crop, movie trimming and media effect adjustment. And it also allows you to set encoding parameters including resolution, bit rate, frame rate, aspect ratio, brightness, contrast to get the best Blackberry video quality.

Key Features

Support almost all video/audio formats

Almost all video/audio formats can be converted with fast speed and amazing quality.

Easy to use

Only a few clicks are needed to complete the conversion.

Customize video converting

Change video settings at will. Profiles can be customized to save as your own ones for handier usage and quicker access in the future.

Edit video as you like

Video editing functions like video cropping, movie trimming, and video effect adjustment (including resolution, bit rate, frame rate, brightness, saturation, and sound channel, etc.) are available. You're in control of your favorite clips all.

Batch conversion

Convert multiple videos at one time. You are even allowed to add files during conversion.

Drag and drop

With AVCWare BlackBerry Video Converter, you can add/remove files or change file sequence by dragging and dropping. Control everything at will!

Run in background

The Blackberry Video Converter supports running in the background so that you can run other programs at the same time with usual speed.
