AVCWare DVD to AVI converter is professional DVD ripping software to convert DVD to AVI, DivX, XviD videos for watching DVD movie on Archos, iRiver and other multimedia devices with high speed and excellent quality. Meanwhile, the DVD to AVI ripper perfects the output video with exquisite video editing tools: crop video image size, adjust video effects and add watermark.

Moreover, AVCWare DVD to AVI Converter combines two powerful functions of video merger and video clip in one, which is to fit your device better. And you can manually set various parameters like bit rate and channels. Batch conversion is time-saving by converting DVD movies in batches. There are still a lot of features waiting you to explore. Go ahead and try AVCWare DVD to AVI Converter today.

Key Features

Merge several files

With the video merger used in AVCWare DVD to AVI Converter, you can merge several titles into one file to output AVI video.

Clip DVD title

The DVD to AVI converter helps you to clip one title with the desired part of DVD title remained for output by specifying its start point and the end.

Enhance output AVI video

Adjust video brightness, contrast and saturation; even change video effects like old film, gray, snowflakes, etc. All these effects mentioned can be achieved in AVCWare DVD to AVI Converter.

Crop video

Resize your video image easily for converting a specific area within the video to better watching on your device or remain the part without logo or subtitle.

Add watermark on video

Add text overlay with control on transparence and position, or picture watermark with adjustable image size. It's a must-have feature for advanced DVD ripping software.

Preview composition in real time

The original and the fixed video with effects can be previewed respectively in two windows next to each other in real time.

Take your favorite snapshot

Just a click to take a snapshot of movie images you love when previewing the DVD with video player built in the DVD to AVI converter. You can save snapshots as JPG, GIF, BMP and PNG files.

DVD to AVI conversion in batch

With batch conversion and multithreading supported, you can complete multiple conversion tasks at one time with AVCWare DVD to AVI Converter.

Auto check for update

Automatically check for updates to keep the DVD to AVI converter software in the latest status.

After done action

No need to wait DVD to AVI conversion process to the end. Just sit down and have a cup of coffee. AVCWare DVD to AVI Converter will do all for you with after done action applied.

Batch conversion and multithreading

Select all files you want to rip; AVCWare DVD Converter will automatically rip them one by one.

Support preview anytime

You can preview the DVD movie with the built-in player before DVD ripping to iPod MPEG-4/MP4 video or audio.

Snap your loved movie image

Take a snapshot of your favorite movie image when previewing and save them as JPG, GIF, BMP and PNG files.

Convert DVD movie with unmatchable speed
