AVS Video Editor helps you create Hollywood-like home videos with little prior computer video experience. Creating great video productions is now a hassle-free task with AVS Video Editor even for beginners. Supports virtually all video formats.

The free evaluation version of AVS Video Editor has no time outs or feature limits. The video editing software is fully functional and only shows a text message on the output video so you'll get a great idea of how to use all of its features.

Key Features

Edit Video Truly Easily

Create your videos in an easiest way. AVS Video Editor is first of all intended for those who are new to video editing. No special video editing skills required.

Make Video Exciting

Choose between 300 innovative video effects and transitions. Apply text and credits to video. Experiment with picture-in-picture or chroma-key effects.

Edit Precisely

Easy and clear navigation for use of video effects. Use an advanced timeline or a story-board for accurate editing.

Edit HD-Videos

Edit videos from HD-cameras quickly and easily. All key formats are supported: HD Video (inc. AVCHD, MPEG-2 HD and WMV HD), TOD, MOD, M2TS.

NEW!Edit Blu-Ray Videos

Trim, cut, split, mix videos, apply effects, add pre-made Blu-Ray menus. Save a project and burn it on to Blu-ray discs.

Add Audio

Insert one or more audio tracks in your media file, mix or trim audio clips. Record your voice or live music. Combine audio tracks with video.

Trim Video

Split video into scenes and delete unnecessary ones.

Work Smart with Overlay

Use ready presets of dynamic overlay effect. Various trajectories available. Build custom trajectories for your needs.

Manage Various Video Formats

Edit videos of practically all formats. Save projects to AVI (DivX, Xvid, etc.), MP4 (inc. Sony PSP and Apple iPod), WMV, 3GP, 3G2, QuickTime (MOV), DVD, VOB, VRO, MPEG-1, 2, 4, MPG, DAT, MJPEG, Real Video (RM, RMV).

Burn Movie DVDs

Burn your video collections onto a CD-R/RW, DVD+/-R, DVD+/-RW, DVD-RAM, Double/Dual Layer. Burn DivX/Xvid discs.

Apply DVD menus

Use ready individual menu styles for every occasion and taste.

Output to Various Sources

Save video project for PC, DVD, DivX/Xvid discs, mobile device, Web. The software automatically selects the most appropriate output format.

Create Slide Shows

Organize still pictures in a digital slide show. Apply transitions, insert audio tracks, save as a video file on PC or burn a DVD disc.

Watch Videos on Mobiles

Upload your collections to PSP, iPod, Archos, Creative Zen Vision, mobile phones, portable DVD players.

Multilingual Support

AVS Video Editor interface and tech-support are available in English, French, German, Spanish and Italian.
