Key Features

Three converting modes

BlazeDVD for Mobile has three converting modes: Entire Disc, Main Movie and Customize. Entire Disc lets you convert the whole DVD to mobile devices and you can convert main movie without menu, subtitle, etc.

One-click solution

Easy to use is a great feature of Blaze DVD for Mobile - DVD to Mobile converter software. Without any complicated configuration, you can finish DVD to video converting with just one click.

Customize output size

Customize converting mode enables you to freely select any segment of the movie to convert. And you can select the most suitable output size to fit for your mobile device memory.

Mobile devices supported

The converted video could be playback on most popular mobile device in the market such as iPod, PSP, iPhone, BlackBerry, Zune, Nokia, LG, Motorola and other cellphones.

Source DVD previewer

The built-in DVD player allows you to have a preview on the source DVD in the mini window before converting. So you can have a general idea on the source DVD to convert.

Perfect video & audio quality

This DVD to mobile converter support real-time and scheduled copy a wonderful episode of DVD/ Video/ Live TV as MPEG video and record DVD/ Live TV as MP3 file.

Flexible target location

BlazeDVD for Mobile allows you to freely specify the destination folder. You can save the converted file both on hard drive and on mobile device.

Customizable resolution

Different devices have different resolution, our DVD to mobile converter software empowers you to customize the output video resolution to fit your mobile device.

Advanced settings

Advanced settings of the DVD to mobile converter enables you to Auto delete temporary files when finished and Auto turn off computer when finished.

Multiple language

Blaze DVD Copy for Mobile support many popular languages, including English, Spanish, French, Greek, German, Polish and so on. No language barrier in your DVD to Mobile conversion process.
