Key Features

- Quickly move all your videos and photos from your device to your computer. VideoStudio Express automatically detects digital cameras, camcorders and mobile phones, so you can easily capture video and send all your files to the Media Organizer for quick viewing.
- Keep videos, photos and music together in one place to find files fast. The Media Organizer lets you view thumbnail images and save them by folder, album, date or rating. To further organize your files, you can create keyword tags, names or captions that help you search and find what you need quickly.
- Quickly decide which clips to keep by previewing your video directly from your camera or camcorder.

-
- The all-new Express Edit mode makes basic video editing a snap, even if you're a beginner. Double-clicking a video clip at any time launches Express Edit, where you can quickly delete the video clips you don't want and improve the ones you do. In just seconds, you can use the QuickCut timeline to cut sections, separate clips and enhance your videos in one simple screen.
 - VideoStudio Express is movie making made simple, even in HD. Edit, burn and share your AVCHD™ video clips in no time.
 - The More Tools menu simplifies advanced video-editing tasks like correcting shaky video and adjusting brightness. Enhance the quality of your video with just a few clicks, then turn it into a movie you'll be proud to share.
 - Get hands-on with your videos in ways that were never possible before. VideoStudio Express takes full advantage of Windows 7 touch-screen capabilities, moving beyond traditional menus and mouse clicks to a more natural and exciting creative experience.
 - VideoStudio Express is a full-featured video-editing program, giving you a variety of professionally designed movie templates for all occasions. Just choose a movie style and watch as VideoStudio Express automatically adds Hollywood-style openings, transitions, music and credits to your video.
 - Personalize your movie by adding titles and text, background music or voiceover—all within the same screen. Customize your movie even more by making quick changes to title duration, position and font styles. It's easy to create the perfect look and feel with drag-and-drop tools and fun effects.
 - Burn video to DVD faster than ever with pre-defined menu styles that help you get professional-looking results instantly. First step: click once to burn a DVD. Next step: showtime!
 - Easily share your video clips, slideshows, pictures and movies online by uploading to your YouTube account right from VideoStudio Express—your complete video-editing program.
 - Convert to iPod®, iPhone, PSP® or other mobile devices so you're ready to share videos wherever you go.
