Cucusoft iPhone/iTouch/iPod to Computer Transfer is an easy to use iPod/iPhone utility designed to help you back up all your files from your iPod, iPhone, or iTouch, so that you can recover any lost or missing music. With this package, you can back up and restore all of your iPod, iPhone, or iTouch content, including your favorite songs, videos, photos, play lists and more.

If you have any iPod or iPhone device, this software is a must-have utility to keep your iPod or iPhone safe.

Key Features

Easy to Use

This top-rated and powerful iPhone/iTouch/iPod transfer software is simple to install and easy to operate.

Multiple Device Compatibility

Works with all iPod, iPhone, and iTouch models.

Auto-Scanning, Indexing and Searching

Auto-scans your iPod or iPhone device, and auto-indexes all files by album, artist, genre, and type. Also auto-searches by album, artist, genre and type.

Backup to Any Folder

You can easily and quickly back up your songs, videos, photos, playlists, podcasts and more from your iTouch, iPhone, or iPod to any folder on your PC.

Import and Export between Devices

You can manage your iPhone/iTouch/iPod content, and import and export files between devices and your computer.

Backup Folder Rule

Advanced settings support the Backup Folder Rule.

No Third-party Player Required

You can play your media file directly into our program without any third-party player.

Transfer Photos

You can now also transfer photos from your iPhone, iTouch, or iPod to your computer.

Easy Search

You can locate any music or video by album, artist, or genre easily.

Multiple Languages

Supports multiple languages, including English, Spanish, German, Japanese and Chinese.

Great Value

This package gives you very good value for money.
