Making data DVDs and CDs has never been easier. Just select the files and folders you want on the disc and burn! You don't need to be an expert. The program works automatically with any DVD or CD drive, and any kind of disc.

**DVD Author Plus** is a professional application which allows users to store their data onto DVDs.

Copying discs is just as easy, even if you only have one drive. Insert the disc, click "Copy", and follow the instructions to make an exact duplicate. It's that simple! Back up your data CDs and DVDs easily and quickly.

Use **DVD Author Plus** to create industry standard ISO image files. You can create an image either from an existing CD / DVD, or from a collection of files . Image files can be burned to disc to create a perfect copy of the original disc at any time. DVD Author Plus can also burn ISO image files that you download.

### key features

- Create data DVDs and data CDs
- Burn discs without needing any technical knowledge using the wizard interface
- Verify discs after writing to ensure data integrity
- Burn discs in the background while continuing to work on other programs
- Copy your DVDs and CDs for backup purposes or to distribute your own discs
- Create multiple copies of a single disc
- Burn CD-R, CD-RW, DVD-R, DVD+R, DVD-RW, DVD+RW, mini-discs and business card-sized discs
- Quick-erase or fully erase any type of RW disc

### system requirements

- 500 MHz Processor
- 256 MB RAM Minimum
- 500 MB of hard disk space (additional space required if working with disk images)
