DVD Ghost is a very useful utility to make your DVD player software and DVD copy / backup softwares restriction-free, and copy/backup DVD to hard disk.

DVD Ghost is a small and effective software working with DVD software. It is light on your system resources and resides in system tray. It removes all kinds of restrictions (CSS, RPC Region code, RCE, APS, UOPS etc.) from the DVD discs in the background.

Through this software your player will be able to play all regions DVD on all DVD drives with mismatched region code without changing the region code. You needn't hack DVD drive (flash firmware) which is very dangerous.

DVD Ghost also allows you to copy your DVD movie to hard drive if DVD copy/backup software not installed in your computer.
