With more than 8 years experience in delivering highly secure and readily available revolutionary recording and copying applications, no one knows more about DVD copy than Pixbyte Development. **DVD-Ranger** is comprehensive, advanced copying software for video DVD backups on any device. DVD-Ranger was created in order to maximize the DVD copying experience, while adhering to strict international copyright laws

DVD-Ranger easily overcomes the flaws of our competitor's classic burning applications, and represents a revolutionary solution supported by our own design innovations: The HotFix Manager utility and the Physxtech Enhancement, both based on our super-speed, high performance copying algorithm.

Main Functions

- Backup DVD 1:1 on DVD9 or shrink the entire DVD to DVD 5.
- Mobilize your DVD to, iPod, PSP, Zune and Netbooks.
- Create ISO, burn ISO and backup from ISO.
- Ability to backup just the main movie.

Key Features

DVD Auto-Copy Functionality

3 simple steps to success - Simply insert the original DVD, select the project type and start copying. Available for Full and Movie Only.

DVD-to-BluRay

Backup your Video DVDs to BluRay (Copy up to 10 Video DVDs on 1 BluRay). With Physxtech, our unique motion detection algorithm, you will obtain the best quality backups.

Custom DVDs

Select the content you want to have on the final copy. Simply deselect unwanted languages, unwanted content and start the copy process.

DVD-to-Mobile

Make mobile copies of your favorite Video DVD. DVD-Ranger supports a wide range of mobile players like iPod, PSP and Zune.

Regioncode

Remove software and hardware (RPC2) limitations from your DVD.

Physxtech

DVD-Ranger comes with a unique recompression algorithm that is based on physically-correct motion detection. This increases quality and dramatically improves rendering with a true-to-life movie experience.

Error & Bad-Sector Scanning

DVD-Ranger comes with an extended Bad Sector scanner. This unique auto fill function will add dummy content to unknown sectors.

Multi Device

DVD-Ranger supports copying and burning activities to multiple devices. You can copy up to 99 devices at the same time.

CD/DVD/BD Burn

Burn Video DVD, Data CD/DVD and BluRay with ease.

Burn Disk Images

With DVD-Ranger you can burn already created and copied Disk Images.

Extended Burn Features

DVD-Ranger supports all Dual Layer/Single Layer/BluRay discs and burners. Plus, it supports all SCSI, IDE, USB DVD burners/recorders.

Current Burn-Speeds

Supports 1x - 22x speed blank media; Supports both NTSC and PAL DVD movies

Erase and Auto-Erase

With DVD-Ranger you can easily erase RW blanks. Simply use the option to auto erase the RW before burning.

Multi Core (Intel)

Option to use 1, 2 or 4 processors (dual core or quad core)

Deposit Buffer

DVD-Ranger comes with a built in option to adjust the deposit Buffer (to avoid over flowing copies).

Preview

DVD-Ranger provides a lightweight integrated DVD Player to preview the DVD Tracks before and during the copying process.

Windows 7 Compatible

DVD-Ranger works on Windows 2000, XP, Vista and Windows 7 (32 bit & 64 bit).

Minimum Requirements
