Last update	08/19/2011
Rank at bluray-dvd-software.ampayer.com	18 of 100

Detail	http://bluray-dvd-software.ampayer.com/dvd95copy-pro.html
Screenshot	http://bluray-dvd-software.ampayer.com/dvd95copy-pro-screenshot.html

Copy any DVD to a regular DVD recordable (DVD±R(W)(DL)) with just 1 click within 30 mins. by keeping all of the original DVD features like menus, different audio streams and subtitles. Dvd95Copy creates real DVD copies and does not copy to vcd/svcd like all the other dvd copying programs. It includes free future updates on this product without further fees. (A boxed version is not available at this time).

Key Features

You can choose between 4 different copy modes:

Full-Disc copy-mode:

This will copy an entire movie-DVD to one regular DVD recordable DVD±R(W)(DL).

Movie only copy-mode:

This will copy the main movie only to one regular DVD recordable DVD±R(W).

Split to 2 DVD copy-mode:

This will split a movie-DVD into 2 discs so it will fit to two regular DVD recordables.

1:1 copy-mode:

Creates a REAL 1:1 Copy of a DVD to either a regular DVD recordable (DVD±R(W)) or to a double layer DVD Recordable (DVD+R DL), depending on the original DVD size.

DVD Format explanation:

- DVD-R

This was the worlds first recordable DVD format and is compatible about 90% to all standalone DVDPlayers.

- DVD-RW

Same as above, except this one is Re-Writable and about 40% compatible to standalone DVDPlayers.

- DVD+R

This is a new-generation DVD format, and is compatible about 70% to all standalone

DVDPlayers.

- DVD+RW

Same as above, except this one is Re-Writable and about 40% compatible to standalone DVDPlayers.

- DVD+R DL

This is a Double-Layer media, and makes 1:1 copies of DVDs possible, because it has the same capacity as pressed DVD-Movies
