Why choose DVDFab Blu-ray to DVD Converter?

- Decrypt any Blu-ray to freely access the content
- Convert Blu-ray to DVD-Video disc independently without any help
- Quickest speed and perfect output for Blu-ray to DVD conversion

As the first full-featured and the most powerful Blu-ray to DVD software in the world, **DVDFab Blu-ray to DVD Converter** can convert any Blu-ray to DVD-Video disc all by itself for you to view using only DVD player or DVD player software.

DVDFab Blu-ray to DVD Converter has the power to remove all known AACs copy protections including the newest MKB v25 and bus encryption, all known BD+ copy protections up to the latest generation 10, Region Code, BD-Live, and UOPs to help you get access to any Blu-ray movies.

DVDFab Blu-ray to DVD Converter converts any Blu-ray to DVD 9 or DVD 5 with high quality; copies and backups your Blu-ray from disc to your computer; creates DVD video from the Blu-ray saved on your PC.

Both NTSC and PAL Blu-ray are supported. The internal UDF 2.50 parser is included to read Blu-ray. Neither in the reading process nor converting process does Blu-ray to DVD Converter need any help from any third party utility.

What's more, it also supports batch conversion, multi-core CPUs, and the newest NVIDIA CUDA to delight users with cool speed, and save time and energy.

Key feature

Great decrypting power helps you freely access any Blu-ray content

DVDFab Blu-ray to DVD Converter helps you get access to any Blu-ray content with ease, since it is powerful enough to remove all known AACs copy protections, all known BD+ copy protections, Region Code, BD-Live, UOPs, MKB V18 and even the newest MKB V19.

Convert Blu-ray to DVD

One of its hallmark functions is the ability to convert Blu-ray to DVD-Video disc (DVD 5, DVD 9). Not only convert to DVD disc, but also in DVD format, and can be played on DVD player and DVD player software. Convert Blu-ray to DVD actually.

Convert independently with no help

The particular point sets Blu-ray to DVD Converter apart from other similar apps is that it can finish the whole Blu-ray to DVD conversion all by itself, without any help from any other utility. Really the FIRST software which can do that.

Backup Blu-ray as DVD file to your hard drive

It also can copy and backup Blu-ray to the hard drive on your PC, saved as DVD file folder or ISO image file.

Supper Fast Processing Speed and High Video/Audio Quality

Batch conversion

DVDFab Blu-ray to DVD Converter of course converts files in batches. So you don't need to manually process the files for conversion one by one to spare your energy.

Multi-core CPUs + NVIDIA CUDA

Just like most of DVDFab products, Blu-ray to DVD Converter also supports multi-core CPUs and the newest NVIDIA CUDA technology to provide you the fastest processing speed you've ever imagine. Time is saved to a large extent.

Outstanding output effect

The output produced by Blu-ray to DVD Converter is perfect in A/V sync, image and sound. Although the original Blu-ray content was compressed inevitably, you can enjoy fantastic output effect with the least loss as well.

Merge several Blu-ray titles into one DVD-Video disc

Blu-ray to DVD Converter can merge several Blu-ray titles into one DVD 5 or DVD 9 while keeping original chapter positions. And, you can re-arrange the order of these titles as you wish.

Select multiple audio and subpicture streams freely

You can freely select any Blu-ray audio track from many available ones and convert Blu-ray audio to DVD standard AC3 stream. You can also select multiple Blu-ray subtitles, and convert them to DVD standard subpicture streams.

Convert part of a title if you like

You don't need to convert one whole title if you just go for part of it. Use "Title Start/End Settings" to define a segment by re-choosing its start/end chapter.

"Loop" play can be activated

Activate the "loop" play function if you want your output DVD to play in this mode.

Preview title in real time

You can preview title with built-in video player, and preview in real time when choosing Blu-ray titles, audio stream, subtitles, and so on to help you set and avoid mistake.

View converting process with pictures besides detailed information

The converting progress can be checked with detailed information, such as elapsed time, left time, current processing percentage, etc. What may make you excited is the whole process can be viewed with vivid pictures from the very movie which changes correspondingly to the very converting stage almost each half second. Really a feast for your eyes!

No need to stand by while converting with auto shut-down

A small but vital feature is the auto shut-down function. With it enabled, you don't need to

stand by during the whole converting process, just do what you want to do, and your computer will shut down automatically when everything is completed.
