Screenshot	http://bluray-dvd-software.ampayer.com/earthsoft-bluray-ripper-screenshot.html

Perfect ripper for Blu Ray and DVD, **EarthSoft Bluray Ripper** makes advanced Blu Ray technology easy to use. It rips/converts blu ray discs and DVDs to AVI, MPEG, MP4, WMV, FLV, MKV, MOV, RM, 3GP, SWF, ASF, MP3, WMA, WAV, RA, OGG, etc.

Preview the movie before ripping/converting, clip any segment from the whole movie, snapshot the moving pictures in preview, customize video quality, video size, audio quality and audio channels, convert files in batches, automatically shutdown the computer after converting has been finished, etc.

Still feel frustrated when looking for a suitable Blu Ray DVD ripper? EarthSoft Bluray Ripper is the one you can stop at. Give it a try for free right now!

A complete upgrade for the blu-ray series products, the newest version 11.0.0 has revised the problem of not able to read certain blu-ray discs.

Key Features

Preview the movie before converting

Click "Play" button in the "Preview" Window, and you can watch the movie plot before converting and get a general idea of the converted effect.

Clip the whole movie into segments

Highlight the selected title, and click "Begin" and "End" buttons to get the movie clipped.

Customize video/audio parameters

Video size, video quality, audio quality and channels are free for you to preset and get your favourite movie effects.

Snapshot the moving images in preview

In preview, if you like some interesting images in the movie, take snapshots to capture the images automatically and save them in BMP.

Convert files in batches

Multiple files can be converted together automatically one by one, which saves much of your time and energy.
