Extra Video Creator is the most able and fast video joiner and video converter software available. It joins and converts video from AVI, MPEG, MOV, RM and WMV formats into AVI, DIVX, XVID, MPEG, MOV, RM, RMVB or WMV video format.

Extra Video Creator lets you edit, join, and convert videos. Ideal for video production beginners. It is simple and easy, practical and functional -- an ideal public-use video editing program. Use Extra Video Creator to edit your own home videos and upload them to a YouTube site.

Key features

- Edit, join, and convert video from AVI, MPEG, MOV, WMV and RM to AVI, with all encoded formats such as DIVX, XVID, Microsoft MPEG-4, etc.
- Edit, join, and convert video from AVI, MPEG, MOV, WMV and RM to MPEG, with all encoded formats such as VCD PAL/NTSC, SVCD PAL/NTSC, DVD PAL/NTSC, MPEG-1 standard, MPEG-2 standard, etc.
- Edit, join, and convert video from AVI, MPEG, MOV, WMV and RM to WMV, with all encoded formats such as Windows media video for Dial-up modems / LAN / Cable modems / Broadband, etc.
- Edit, join, and convert video from AVI, MPEG, MOV, WMV and RM to MOV, with all encoded formats such as H261 / H262 / H263 / MPEG-4, etc.
- Edit, join, and convert video from AVI, MPEG, MOV, WMV and RM to RM file, with all encoded formats such as 150k LAN / 256k DSL or Cable / 16K substream for 28k Dial-up .
- You can see the ripping progress in a preview window.
- As if that isn't enough, Extra Video Creator also allows you to specify start and end position to join, and will even let you choose to have your computer automatically shut down after lengthy batch conversions.

system requirements

Os_support : WinXP, Windows2003, Win98, WinME
