Powerful audio/video mastering and burning kit

There are many fine products that can burn CDs and DVDs. But do they have the features you require? FinalBurner is the last burner you will ever need! Burn Blu-Ray or HD-DVD media with revolutionary High Definition media support. Author your own DVD-Video or re-master an existing one, or save yourself a blank DVD-R and design a Video CD if your source video is coming from a compact digital camera and is not on par with DVD resolution. Use your MP3 collection to create your own audio CD that you can listen to in a car. Protect your favorite songs and movies from scratches by creating backup copies of your DVD movies and audio CDs. Finally, design and print your own disc covers and insert them into a DVD box or CD jewel case for a great, professional look!

With FinalBurner, you can easily create a DVD-Video disc by simply importing movies from existing video files in virtually any format, including the popular AVI, DivX, MPEG, WMV, ASF, and MOV. If you have a webcam, TV tuner, compact photo or DV camera, FinalBurner can easily capture the video stream and master a professional-looking DVD.

Does your car have an MP3 player or are you among the rest of us who can only play the good old Audio CDs while driving? FinalBurner will create an AudioCD/MP3CD to play back in the car from your digital music files in wav, mp3, ogg, mid, wma, aac, mp4, m4a, xm, mod, s3m, it, mtm and mo3 formats. Ripping music to WAV or MP3 formats is also easy with FinalBurner.

Do your kids watch their favorite cartoons so often that you are buying new copies of the same title every now and then? Save money by creating backup copies of the most watched discs with FinalBurner!

Have you just compiled a great collection of songs, and wish you had a cover with the tune titles? There is absolutely no need to search for a cover designer as it is already there in FinalBurner. Create a great-looking cover for your music or video in a matter of minutes!

A product that includes DVD authoring, media backup, disc burning, music ripping, and cover design must be a complex and expensive one, right? Wrong! FinalBurner is not only easy to use, but it won't make you break the bank being the least expensive product among its competitors!

Easy, convenient, intuitive disc creation is finally made possible with FinalBurner. Download your free evaluation copy or order the full version now!
