Flip video camcorder has made its name world wide. It's very creative, cool and super simple. You can email videos (it will automatically compress and reformat the video to an acceptable size), save videos locally (you can organize them by creating folders), share videos online via AOL and edit them as well. It also has very simple yet functional video editing capacity; the four family members Flip Mino, Flip Mino HD, Flip Ultra and Flip Ultra HD will definitely meet demands of a large quantity of population with different preference.

At the time we are happy for ourselves for having purchased it to make some memorable videos that we can share in a blink of the eye with our friends and family. We find there is something flip video just can't do, flip video produces h.264 and mp4 files. But some one would prefer the. Mpeg file as output format. Is there a shortcut to convert flip to mpeg?

Flip video to mpeg converter is a very powerful and easy-to-use Flip Video to mpeg video converter app. It can convert any Flip video to mpeg with flexible settings and high conversion speed.
