**ImTOO DivX Converter** is a professional DivX Video Converter tool to simply convert popular videos in 3GP, AVI, MKV, MPEG-4, MP4, MOV, RM, and WMV to DivX videos. And it also supports AVI, MOV, MPEG-4, MP4, VOB, XviD, 3GP, FLV and WMV as output formats. Besides, this video to DivX converter can extract audio from video to M4A and MP3 files.

- ImTOO DivX Converter is created to help you **convert 3GP, AVI, MKV, MPEG-4, MP4, MOV, RM, and WMV videos to DivX** and other popular formats like **AVI, MOV, MPEG-4, MP4, VOB, XviD, 3GP, FLV and WMV** with high speed and excellent quality.
- In addition, the video to DivX converter can also extract audio from video files and convert them to M4A and MP3, and convert pictures in **JPG, GIF, PNG, BMP** formats to DivX and other videos.
- The easy-to-use DivX converter provides many useful editing functions: convert any segment of video, customize file size, split video and adjust preferences.

## Key Features

- The support for dual core or multi-core CPU makes DivX video conversion faster than before.
- Allow you to split a video file into several DivX files by the user-defined split time or file size.
- Help you directly convert a video clip from the original video. You can define the start time and duration.
- To get the output file size you want, use Bitrate Calculator to achieve it only by entering the desired file size.
- Output more than one file only once by adding several profiles for the source you want to convert.
- Provide general video and audio parameters to adjust, such as bit rate, frame rate, codec, resolution, quality and channel.
- Several after-done actions offered in the DivX video converter including shutdown, exit, hibernate and standby.
- Run the software in the background to finish the conversion for consuming less resource.
- During preview, you can take a snapshot when you find desired movie scenes and save as JPG, GIF, PNG or BMP.
