Ever wanted a quick and easy way to transfer your entire High or Standard-Definition (HD/SD) video collection to your favorite multimedia devices? **ImTOO HD Video Converter** can convert just about any video format for playback on devices such as the iPod, iPhone, Apple TV, PSP, PS3, Xbox and many others. With this HD converter software, you can also extract audio from videos, convert audio formats, turn pictures into videos and vice versa.

Among the many formats supported by the ImTOO HD Video Converter include HD videos (incl. HD AVI, HD H.264/AVC, AVCHD (.mts, .m2ts), HD Quick Time, HD MPEG-2 TS, HD MPEG-4 TS, HD WMV), SD videos (incl. AVI, MPEG, MP4, ASF, MOV, RMVB, WMV, DivX, XviD, 3GP, RM), audio (incl. MP3, WMA, WAV, M4A, AAC) and pictures (JPG, GIF, PNG, BMP).

Try out the ImTOO HD Video Converter and its amazing features for FREE!

Main Functions

HD, AVCHD video converter

Convert HD video between various HD formats: HD AVI, AVCHD (.mts, .m2ts), HD H.264/AVC, HD Quick Time, HD MPEG-4, HD ASF.

HD video to SD video converter

Convert HD video to SD video like AVI, MPEG, MP4, ASF, MOV, RMVB, WMV, DivX, XviD, RM, and VOB.

Video converter, audio converter

Convert videos among popular video formats; convert between audios like MP3, WMA, WAV, M4A, AAC, AC3.

Video to and from picture converter

Capture image from favorite video and save as JPG, PNG, GIF, BMP; convert picture files to videos for smooth watching.

Key Features

- With support for multi-core CPU, ImTOO HD Video Converter transcodes HD videos faster than before.

-
- Batch converting and multithreading allow ImTOO HD Video Converter to convert multiple HD videos simultaneously.
 - Support HD video decoding and encoding, HD DV like AVCHD DV, MPEG DV, and converting videos recorded from HDTV.
 - Running the software in background when converting saves resources and lets you do others at the same time.
 - Directly convert any segment of one HD video file by entering its start time and duration; split one file into several.
 - Manually set parameters of output file like bit rate, frame rate, sample rate, codec, channel and video quality.
 - Bitrate Calculator allows you to specify the output file size you want and calculates the video bit rate right away.
 - The pre-defined profiles are well classified by device type. Also, you can create your own profile by setting parameters.
 - Able to play the output file, preview the source file, take a snapshot of movie images and save as JPG, PNG, GIF, BMP.
 - Free you after conversion tasks are completed with auto-shutdown, auto-exit, auto-standby, auto-hibernate actions.
