ImTOO iPhone Video Converter is the best iPhone movie converter software to convert all video files like AVI, MPEG, WMV, DivX, MKV, H.264, AVCHD, MOV, MP4, RM, RMVB, and VOB to iPhone movies for video iPod and iPhone mobile perfectly. The video converter for iPhone helps you convert video for iPhone, e.g. AVI to iPhone, and put movies on iPhone easily.

- ImTOO iPhone Video Converter is specially designed for iPhone fans which can convert video files such as **AVI, MPEG, WMV, DivX, MP4, MOV, RM, RMVB, ASF and 3GP** to iPhone movies and iPhone MP4/MPEG-4, and is particularly suited to convert the latest video formats, e.g. **MKV, H.264, AVCHD**.
- As an iPhone music converter, ImTOO iPhone Video Converter can convert to iPhone music MP3, WAV, and AAC from popular music files like **MP3, MP2, WMA, RA, AC3, OGG, APE** and **CDA**, as well as extract audios from movies or music videos and convert to iPhone music MP3, WAV, and AAC.
- ImTOO iPhone Video Converter supports TV output with 480p and wide screen.

Main Functions

Convert video to iPhone movie

Convert various videos like AVI, MPEG, WMV, DivX, MP4, 3GP to iPhone MP4/MPEG-4 videos, e.g. MKV to iPhone.

iPhone music converter

Convert music files like MP3, MP2, WMA, RA, AC3, OGG, APE, and CDA to iPhone music MP3, WAV, AAC, AIFF.

Audio extractor, picture converter from video

Extract audio from video; convert pictures in JPG, PNG, GIF, BMP to iPhone video for smooth watching on iPhone.

Support for multi-core CPU

Automatically detect CPU. Full support for multi-core CPU makes the conversion speed faster than before.

Key Features

- Multithreading and batch conversion mean that you can convert multiple files at the same time.
- Let you adjust parameters including bit rate, frame rate, sample rate, channel, codec, and aspect ratio.
- Able to split one file into several and convert any segment of one file with its start time and duration specified.
- Allow you to add multiple files in the same or different formats to be converted for one source.
- Bitrate Calculator helps you get the output file size instantly.
- Capture and save your favorite movie images as JPG, PNG, GIF, BMP when previewing movies with the player.
- Provides after-done actions (shutdown, exit, hibernate, standby) to free you from having to wait.
- Supports running in the background and save individual profiles after the parameters have been customized.
