Now you can install the same theater-quality video and audio decoders relied on by over 125 million users of WinDVD® — the world's leading software DVD player. MP3 + DVD XPack is a combined plug-in, offering both high-quality DVD playback and the ability to create MP3 music files on your PC.

If you're running Windows Media Player and/or Windows XP Media Center Edition, you can enhance your DVD playback and music listening experience with Corel decoder packs. Available separately or as a combined plug-in, DVD and MP3 XPacks deliver superior picture and audio quality for the best digital entertainment experience.

MP3 XPack

For the first time, you can create high-quality MP3 files with rich stereo sound directly from Media Player, at bit rates ranging from 96K to 320K. Once you have your digital audio tracks saved to MP3 format, easily move them onto an audio player, like an Apple® iPod®, or burn them to a CD.

DVD XPack

DVD XPack supports the revolutionary NVIDIA® PureVideo™ technology, which delivers superb picture clarity, free of imperfections. You get precise and vivid colors, creating a high-definition home theater for your PC

MP3 + DVD XPack

Get the most out of Windows Media Player with the MP3 + DVD XPack bundle. Buy both and save!
