iOrgSoft AMR Converter is a professional and powerful AMR batch converter that lets you convert MP3, WMA, WAV, M4A, MP2, AC3 files to AMR format used for your cell phone. In addition, you can also use the program to extract audio from AVI, MP4, WMV, 3GP, MOV, VOB, MPG, ASF, RM, RMVB, FLV files.

iOrgSoft AMR Converter performs in batch mode so that t you can easily convert an entire list of audio files to AMR with very little effort. It lets you trim any segment of your video/audio files by setting the start time and end time.

iOrgSoft AMR Converter provides you with the optimized default settings. However, there are still a lot of settings can be tweaked to fit your special need such as sample rate, bit rate, audio encoder, channel, and volume.

Not only an AMR Audio Converter, it is also an audio converter and video to audio converter, so you can enjoy any music on all popular MP4/MP3 players like iPod, iPhone, Zune, PSP, iRiver, Archos, Creative Zen etc.
