iSkysoft DVD Copy for Windows enables you to copy or clone protected or encrypted DVD freely without dealing with complicated settings. It is powerful and easy to use DVD copy and clone software that helps to copy and backup all DVD movies to DVD disc in 1:1 ratio, or copy DVDs from DVD9 to DVD9, DVD9 to DVD5, DVD5 to DVD9 and DVD5 to DVD5. It removes CSS, RC and RCE copyright protections while copying or clone your DVDs automatically. It gives a full support to Windows 7.

Note: If you are using Mac OS, please go to [DVD Copy Pro for Mac](#)

Key Features

- Compress dual layer DVD movies onto a single layer DVD (DVD9 to DVD5).
- Copy or backup DVDs to DVDs including DVD9 to DVD9, DVD9 to DVD5, DVD5 to DVD9 and DVD5 to DVD5.
- Support DVD-5 and DVD-9 DVD-R, DVD+R, DVD-RW, DVD+RW, DVD+R DL, DVD-R DL, DVD-RAM.
- Protect commercial DVDs from scratches by directly copying them to DVD-Rs.
- Remove CSS, RC, RCE and other DVD protection while copying commercial or protected DVD disc.
- Compress DVD movies to hard drive disc as DVD Folder or ISO image file on external hard drives.
- Choose subtitle and sound track for DVDs you are going to backup.
