Leawo AVCHD ConverterNT/2000/XP/Vista/Win7

Leawo AVCHD Converter lets you convert AVCHD videos to enjoy anywhere. This AVCHD video converter is developed to convert AVCHD video to various formats, like AVI, MP4, WMV, MPG, MOV, FLV, RMVB, etc. It provides perfect support for AVCHD videos, H.264/MPEG4 AVC videos and JVC recorded videos with advanced hardware acceleration to provide high speed conversion.

In addition to fast AVCHD to video conversion, the program also meet extended needs to cut HD video length, change HD video size to match 4:3 or 16:9 aspect ratio display, add image and text watermark and adjust video brightness, contrast and saturation. You can also modify conversion settings like video bit rate, frame rate, audio channel, etc. to get specific outputs.

Key features

Convert HD video of all types

This high definition video converter (HD converter) flawlessly supports all kinds of HD video, including MOD/TOD and AVCHD videos from camcorder devices, MTS/M2TS videos from Blu-ray disc.

Make HD video available in various formats

Leawo HD Video Converter can convert HD video to almost all available formats, e.g. AVI, MP4, WMV, MKV, RMVB, FLV, MPG, MOV, VOB, 3GP.

Stable and high speed HD video conversion

You can convert batch of HD videos at a time and run the program on multicore CPU system for a fast HD video conversion.

Put HD video to enjoy on personal devices

This HD tool provides abundant output profiles to convert HD video for playback on iPod, iPhone, PSP, Zune, Apple TV, Xbox, mobile phones and more without hassles.

Professional conversion settings for flexible output

There are advanced settings for conversion like video bit rate, frame rate, audio bit rate, channel, etc. to broaden output of the HD video conversion.

Built-in HD video player with screenshot output

The program comes with an embedded video player for you to preview the HD videos and capture the video frames and then save them to JPG, BMP or PNG files.

Adjust video effect to your satisfaction

You can tweak the brightness, contrast and saturation of the image so as to get the video to project better on your device screen.

Cut your favorite part out of the entire video

This HD video converter lets you pick a precise length of the HD video for conversion to get rid of unwanted parts easily.

Crop the video image for better display

To make the HD video display better on different screens, e.g. TV screen, projector canvas, mobile phone screen, Leawo HD Video Converter offers 4:3, 16:9, pan scan crop presets as well as the opportunity to customize.

Add text or image watermark as you like This program allows you to input an image file as a watermark or enter a text to make one handily.
