Leawo MOD Converter is a handy solution for the needs to convert MOD video to different formats, in order to utilize videos recorded by JVC camcorders in many occasions. With this MOD video converter, you can convert MOD to AVI for video edit, MOD to MP4 for playback on iPod, MOD to FLV for share on YouTube, etc. It can let you get smooth output of MOD to video conversion with no technical troubles to worry about.

For advanced users, the program also sports professional conversion settings. You can also change conversion settings like video bit rate, frame rate, audio channel, etc. to get better outputs. Besides, there are handy video edit features for you to trim MOD video length, crop MOD video to fit for 4:3 or 16:9 aspect ratio display, add watermark as video logo or personal signature and adjust video effects.

Key Features

Convert MOD video for any occasions

Leawo MOD Video Converter can convert MOD videos to many popular video formats, e.g. AVI, MP4, WMV, MKV, RMVB, FLV, MPG, MOV, VOB and 3GP, to satisfy diverse needs for MOD videos.

Fast MOD to video conversion

This MOD converter is capable of batch conversion and multiprocessing to provide a high-speed MOD to video conversion to save your time and effort.

Enjoy MOD on various video devices

This MOD conversion tool provides optimized profiles to convert MOD video to play on iPod, iPhone, PSP, Zune, Apple TV, Xbox, mobile phones and more video devices without the hardship to configure conversion settings.

Customize conversion settings for extensive demands

In addition to handy profiles, you can also configure advanced settings for conversion like video bit rate, frame rate, audio bit rate, channel, etc. to get a specific MOD to video conversion.

Play MOD video and capture screenshots

The program has a built-in video player for playback of MOD videos. During playback, you can capture the screenshots of the video and save them to JPG, BMP or PNG files.

Adjust video effect for sharper display

You can change the brightness, contrast and saturation of the video effect in order to make the video display sharper on your device screen.

Get your favorite part of the video

If you want to convert a desired length of the MOD video, you can separate it precisely by milliseconds.

Resize video to fit different displays

Leawo MOD Converter offers 4:3, 16:9, pan scan crop presets as well as the opportunity to customize so that you can display the MOD video better on different screens, e.g. TV screen, projector canvas, mobile phone screen.

Add custom watermarks

This program allows you to watermark the MOD video with an image file or a simple text.
