### Why choose Leawo PowerPoint to DVD Pro?

- Make Universal DVD, Blu-ray Disc or Video from PowerPoint Presentations
- Add Something Special for Output DVD/Blu-ray Disc/Video Slideshows
- Convert Quicker, Better with Leawo PowerPoint to DVD Pro

A master program that empowers you to **burn a compelling PowerPoint file to DVD movie** for enjoying on a TV or projector with DVD player, and that aids you to **convert a PPT presentation to 23 formats of video** compatible to websites like YouTube and portable gadgets like iPod.

The conversion tool features a good performance in **preserving all the original effects** from PowerPoint (e.g. animations, sounds, transitions, movie clips and internal links), a rich range of **DVD menus** for screen display, a considerate setting of slide playback modes, and a distinctive option of logo insertion for the output. Whether you are a teacher or a professional, when taking **Leawo PowerPoint to DVD Pro**, you will always enjoy your presentation within reach at office, home and on the go.

### Key Features

- Burn PowerPoint to DVD for Various DVD Players By creating chic DVD from PowerPoint, it empowers you to playback a slideshow across different platforms, e.g. from a PC to another, to a Mac, particularly to a TV with DVD player.
- Convert PowerPoint to 23 Video Formats Converts PowerPoint presentations to video in ASF, AVI, WMV, MPEG, FLV, MP4, VOB, 3GP, 3G2, MOV, TS, DV, DAT, RM, RA, MKV, MKA, Wii AVI, Wii MOV, NDS DPG, NDS DPG2/DPG3/DPG4.
- Output PowerPoint to Standard DVD & HD DVD Allows you to set a DVD style for selected presentation. You can select either "Standard DVD" (yields average video quality) or "High-definition DVD" (nice for HD TV playback) in light of demand.
- **New** input support for PowerPoint 2010 It is appended with fresh support for recent PowerPoint 2010 beta. A considerate supplement for converting your PowerPoint 2010 presentation to 22 video formats other than WMV.
- Logo PowerPoint presentation for protection Colors the conversion experience with the initial "Logo" feature that lets you add in a company trademark or your own avatar to identify a PowerPoint DVD and safeguard it against piratical hands.

- 
- Navigate audience with delicate theme DVD menus Provides a wide range of DVD menus for many occasions, themes of Business, Education, Holiday, Sports, etc.
  - Special presentation modes: One Animation One Chapter & One Slide One Chapter The former is designed for teachers and business presenters to make emphasis points, while the latter for novice users to avoid unnecessary repeats.
  - Record voice narration for output DVD and video Offers a function of recording sounds like your narrations and instructions to the output DVD or video . This works efficiently when you forget adding an audio file in the source presentation.
  - Retain full of animations, music, movie clips and slide transitions Susceptible of keeping everything from a specified PowerPoint presentation, esp. animations, background music, movie clips and slide transitions within.
  - Support batch conversion of PowerPoint to DVD and PowerPoint to video Switches up to 12 PPT files to sound DVD or video at once. Meet well to multi-conversion of presentations.
  - Flexible output settings for diverse screen sizes Offers different video aspect ratios (usu. 4:3 or 16:9) for different screen standards to your DVD/video slideshow.
  - Fast conversion with neat DVD/video output Processes a PowerPoint presentation in a few seconds while fruiting a fine DVD or video slideshow. Save your time to a maximum.
