[Video converter](#) + [DVD Ripper](#) + [DVD Creator](#)

Total DVD Converter Suite can powerfully rip DVD, burn DVD and convert a wide range of common videos. In addition to being able to copy DVD to hard disk without quality loss and convert DVD to AVI, MP4, WMV, etc. formats, this Total DVD Converter Suite can help you burn your AVI, MP4, WMV to DVD with just a few steps. Besides, converting video and audio between popular formats is also available in this all-round DVD Converter Suite.

Optimized profiles are provided for DVD/Video conversion to different gadgets, e.g. iPod, iPhone, PSP, PS3, Zune, Apple TV, Mobile Phone, Windows Mobile, Xbox, Wii and PMP. As for video to DVD creation, you will find handy profiles for NTSC, PAL/SECAM, 720p/i, 1080p/i in this DVD Converter Suite.

This versatile DVD Converter Suite also provides unique video editing functions to help you get custom output. You can adjust audiovisual effect, trim video duration, crop video size, create watermark and even change codec parameters.

Key Features

Rip DVD to popular video audio formats

Total DVD Converter Suite can decrypt and convert DVD to popular formats like AVI, MP4 and WMV with quality profiles. It can also copy DVD movie to hard disk without quality loss, convert DVD to HD video format and rip DVD music to audio files.

Convert video or audio between various formats

Do video to video, video to audio and audio to audio conversions in this universal DVD Converter Suite with up to a hundred formats supported for input and output.

Burn video or audio to DVD

Burn a wide range of video audio formats (AVI, MP4, WMV, etc) to various DVD formats: NTSC, PAL/SECAM, 720p/i, 1080p/i. It is easy and fast to create a compatible DVD for all DVD players.

Fast output to various portable devices

Total DVD Converter Suite supports many popular multimedia devices, including iPod, iPod Touch, iPhone, iPhone 3GS, PSP, PS3, Zune, Apple TV, Mobile Phone, Windows Mobile, Pocket PC, Xbox, Wii, Archos, Creative Zen and iRiver. There are established profiles for the convenience and quality of your conversions.

Powerful video editing functions

Custom video output is available via powerful video editing functions: Effect, Trim, Crop, Logo and Text. With these useful features, you can adjust video effect in brightness, contrast and audio volume, cut video duration in milliseconds, crop video size and change aspect ratio and add image or text watermark.

Built-in preview and one-click screenshot

Play imported video in the built-in player, capture any screenshots freely and then save them as JPEG, BMP or THM image files.

Batch conversion and after-done functions

You can add as many video files as you want to convert. Total DVD Converter Suite will process the video files all in one go. Useful after-done functions are available either to open output folder or shut down computer upon your choice.
