CyberLink MediaShow 5 is a fast and easy way to preserve and share your life's best moments. One-click fixes, face tagging, uploading to Facebook and express video conversion, are just some of the convenient features available for organizing and sharing your photos and videos.

Key Features

One-Click Fixes

MediaShow provides a range of tools to enhance your photos, photo slideshow, and videos with just one click. Impress your friends by making sure your photos, photo slideshow, and videos always look their best.

Memorable Slideshows

Combine video with your photo slideshow. New animated text and transition effects, plus easy-to-apply templates, let you combine photos and videos to create unforgettable slideshows in minutes.

Smart Face Tagging

Offering fast face detection with support for DirectX 11 DirectCompute, MediaShow 5 organizes photos by people. FaceMe™ technology identifies faces so you can tag your collection in a faster and smarter way. Photo Face Tagging has never been so useful!

Automatic Sorting

Automatic grouping of photos plus smart suggestions for tagging make it fast and easy to organize photos. MediaShow automatically organizes your photos and videos by date, too.

Speedy Video Conversion

Video conversion up to 10X faster, by leveraging the full power of your CPU and graphics processor. MediaShow is optimized for 2010 Intel Core Family Processors, NVIDIA CUDA, and ATI Stream technology.

Easy Video Editing

MediaShow provides easy tools for editing videos. Choose from one of 12 templates to create a video theme, featuring music and effects, or manually trim your clip down to size in just a few clicks.

Ways to Share Online

Explore new ways to share your memories online. Upload tagged photos directly to Facebook. Add to your image collection on Flickr. Broadcast yourself via YouTube.

Memories for Keeps

Burn a disc of your favorite video or photo slideshow to play on your DVD player. Add a navigation menu from your built-in library or download heaps more styles from DirectorZone.com.

Media On the Go

Output your photos, photo slideshow and videos to mobile devices like an iPhone, iPod, PSP or Zune. Pre-set profiles eliminate the need for any complex settings.
