Your iPhone is also your tiny mobile theatre. With **mediAvatar iPhone Software Suite**, any movies in almost all high-definition and standard-definition video formats or on DVD discs can be transferred to your iPhone. Meanwhile, any music format files and music CDs are also available to be imported to iPhone. You can even download and convert videos from popular video sharing sites like YouTube to iPhone, and make iPhone ringtones from any popular video format files.

But it's more than that. This mediAvatar iPhone Software Suite can backup your purchased iPhone videos and music to your computer or iTunes library in case of iPhone crash accidents. All the conversion and transfer features are also applicable to iPod.

- Transfer videos, music, photos from iPhone to PC, PC to iPhone, iPhone to iTunes, iPhone to iPod/iPhone
- Transfer PDF/EPUB between iPhone and PC **(Pro Only)**
- Make iPhone ringtones from media files **(Pro Only)**
- iPhone converter to convert and transfer DVDs, CDs, videos, audios to iPhone
- Download+convert online videos to iPhone **(Pro Only)**
- Manage, transfer, copy, backup, rip iPhone & iPod

## Key Features

### Supported Devices

All iPhone/iPod models are supported: iPhone 4, iPhone 3GS, iPhone 3G, iPhone 1st, iPod touch, iPod nano (5th Gen), iPod mini, iPod shuffle, iPod classic, etc.

### Manage Multiple Devices Simultaneously

Simultaneously connect multiple iPod and iPhone devices and manage their media files; transfer movies, music and photos among these iPhone and iPod; transfer the same files to multiple iPod and iPhone at one go.

### Manage iPhone as Hard Disk

Make your iPhone a portable hard disk by opening it in Windows Explorer, enabling you to manage all the iPhone files like other hard disk.

### Recognize iPhone Device Info

Recognize the connected iPhone and iPod, and display their detailed device information like type, capacity, version number, serial number and format for your check.

### Manage & Transfer iPhone Playlists

Not only manage iPhone playlists easily like iTunes, but also transfer iPhone playlists between

---

multiple devices connected.

### **Manage iPhone Files**

Search for movies, music and photos you want quickly with Filter or Quick Search function; view iPhone music, videos, and photos as a list or thumbnails, and add illustrations to iPod music and movies in thumbnail mode.

### **Edit ID3 Tag**

Allows to edit the ID3 tag of multiple music files at the same time for easier music management: name, artist, year, album and many others.

### **Built-in Media Player**

A media player is built-in enabling you to play iPhone videos/music and the loaded DVDs, CDs and videos.

### **Convert & Transfer iPhone Files at High Speed**

This iPhone converter & transfer takes advantage of multi-core CPU to convert DVDs, videos and music at the possibly highest speed and uses the least amount of time to transfer videos and music between iPhone and PC.

### **Manage iPod as well**

This iPhone transfer is also a iPod transfer that can transfer, manage, backup iPod files, export the movies taken by iPod touch 4 to your PC or iTunes.
