Copy and backup unprotected CDs and DVDs
in just a few clicks!

- Copy movies from unprotected DVDs in just five minutes. Simply add the DVD and hit Start. Et voila - an instant clone of your original DVD is ready!
- Use Save to hard disk to save selected video DVDs to your computer.
- Then burn the saved movies on to DVDs to share with friends and family.

Preview, edit and enhance your videos
before burning to CD or DVD.

- Open the added video in Edit mode to preview it before creating the new disc.
- Apply the Magic Enhance filter to your video to dramatically improve the quality before burning.
- Divide videos into chapters to make navigating through the disc content easier.

- Add titles to your videos.

Create Hollywood-style DVD menus
Create stunning menus for your video DVD.

- Choose from more than a dozen static and animated DVD themes to create a professional-looking menu that grabs your viewers' attention!
- Customize your DVD menu: add your own .mp3 background audio and loop video inside a theme.
- Download DVD menu themes for FREE: theme templates can now be downloaded after installation, reducing the size of the installation file and simplifying the evaluation process.

And more...

- Add files directly from Windows Explorer with the easy-to-use drag-and-drop interface.
