key features

Download online video
- Use our flv converter to save online video to your PC

- Movavi Flash Converter lets you download online video from a whole range of popular video-sharing websites*. Just choose a video, copy the link, and insert it in the program's window. You can use our flv converter to download and convert as many videos at once as you like!

Convert FLV files to popular video formats
- Our flv converter supports a whole range of video formats

- With Movavi Flash Converter, you can download online video in Flash format and convert flv videos to iPod, PSP, iPhone, cell phone... the list is almost endless.
- Just as easily, our flv converter allows you to convert Flash files stored on your computer into any format and for any device.
- Extract joyous and moving audio tracks from the clips you like, save them to WMA or WAV format and hum your tune even offline.
- Input Video Formats: Flash (FLV).
- Output formats: AVI (including DivX, XviD, MJPEG, and other codecs), MPEG4

(MP4), 3GP (3GPP, 3GPP2), QuickTime (MOV), Windows Media Video (WMV), Flash (FLV), WMA, WAV.

Enjoy the preview option
- Preivew online videos right inside your flv converter

- Before you begin to convert flv files you might need to preview the online Flash video you picked - just one click on the 'Preview' button and you can use the flv converter to download online video and watch it the same way as you would using a browser.
- Now you can play related Flash videos in the Preview area. It's quick and easy to add more videos using Movavi Flash Converter!

Super-fast video conversion technology
- Movavi Flash Converter helps you get the most out of your hardware when you convert flv video

- Support for modern Intel Core 2 Duo and AMD Phenom multi-core processors means you can convert flv video faster than ever!
- Batch conversion saves time by letting you convert multiple video files in a single step.
- Enjoy powerful award-winning video conversion technology from the makers of Movavi Video Suite
