Movkit iPod Video Converter is a highly efficient video converter for iPod of Apple. It works with nearly all popular video as well as audio formats. Using Movkit iPod Video converter, AVI, MKV, DIVX, XVID, H264, FLV, OGM, RMVB, RM, WMV, ASF, MOV, QT, DAT, VOB, MP4, MPG and many other formats can be easily converted into iPod Video with perfect quality.

Movkit DVD to iPod Ripper is an outstanding DVD to iPod conversion software for the users who need to convert DVD to iPod video. With it, you can backup all popular formats like DVD disk, VOB, IFO as iPod Video (includes iPod 5, iPod Nano 3, iPod Classic, iPod Touch all Series) and Apple TV formats

Main Functions

WMV to iPod Video Converter

Movkit iPod Video Converter is an outstanding WMV to iPod converter which can convert WMV to iPod Video and iPod audio.

AVI to iPod Video Converter

Movkit iPod Video Converter is also an excellent software which can convert AVI to iPod video and iPod audio with exceedingly high video quality.

RMVB, RM to iPod Video Converter

The program also supports RMVB(RM) to iPod Video and iPod Audio, including Real Video 8, Real Video and Real Video 10.

Similarly, other popular video formats like MKV, DIVX, XVID, H264, FLV, OGM, MOV, QT, ASF, DAT, VOB, MP4, MPG, MPEG, etc. can be easily converted as the MP4(iPod video) formats with high speed and nice quality.

Easy to Use for iPod Video Processing

Easy Conversion from DVD to iPod Video MP4 and Apple TV with excellent output quality as well as extremely high speed.

VOB to iPod Converter

Backup VOB as sound-quality iPod Video formats with an exceedingly high speed.

IFO to iPod Converter

The IFO files can also be transformed to the high-quality iPod Video formats. Rip and convert DVD to iPod Audio MP3.

Key Features

- Powerful Batch conversion is available for you to convert a large number of DVD or Video files into the iPod video simultaneously. It works much faster than converting them one by one.
- All popular video formats, such as AVI, MKV, DIVX, XVID, H264, FLV, OGM, RMVB, RM, WMV, ASF, MOV, QT, DAT, VOB, MP4, MPG, and many others can be converted to iPod Movie. Also supported by the Movkit iPod Video Converter.
- With unbelievably fast conversion speed, your input files will soon be converted to the target format files, such as iPod video (contains iPod 5, iPod Nano 3, iPod Classic, iPod Touch all Series), Apple TV and so on.
- All iPod Video formats, playing on the Apple products from the iPod 5 to the latest iPod Touch, iPod Classic and iPod Nano 3 as well as Apple TV, are supported by the Movkit iPod Video Converter.
- Besides the video conversion, of course, all the supported formats can be converted to iPod Audio file format with high speed.
- There is a beautiful and explicit interface which enables even a user who does not read the user manuals to use it easily.
- Magic Preview is available for the users to experience the effect which will totally put up after conversion.
- Visual function of picture cropping makes the software more convenient to use.
- Accurate Setting Manual Split Mode

Allows the user to select section start and end of fragments and output iPod Video format.

- Full formats supported: the Movkit DVD to iPod Ripper supports all forms of DVD files to iPod Video format, and offers various kinds of video cropping mode. e.g. 16:9, 4:3, full screen and so on.
- The program offers language choice of subtitles and audio track, and also supports the adjusting of volume and multi-angle DVD.
- Adjusting of brightness, contrast and subtitle position, directly reflected in the picture of preview, is easy to handle.
- All encoders/decoders are built-in so that there is no dependence on Windows Codecs. You can also convert all supported formats when backing-up the DVD to iPod Video. In addition, it can also convert CSS-encrypted perfect quality DVD movies.
- High speed

Fully supports Intel Pentium D Dual-Core Processor and AMD Athlon 64 X 2 Dual-Core Processor; supports multi-threading with no limitation in speed; detects your CPU model automatically, and offers you the quickest ripping speed.

System Requirement

- Windows 2000/2003/XP and Windows Vista;
- 1000MHz Intel or AMD CPU, or above;
- 512 MB RAM or more;
- 100 MB free hard disk space.
