**Moyea Flash Video MX Pro** is for converting video/FLV to SWF or FLV with the latest H.264 & F4V encode option, together with dynamic video compression and audio settings! With an upgrade, the latest version 6.0 changes the conversion process to increase the convert speed and conversion quality. It also offers you a new feature to help you to make a customize web player for publishing your video to web.

The program enables you to import standard-definition and high-definition video (.mod, .tod, .mts, .m2ts) from digital camcorders, Real Media file (.rm, .rmvb), Windows Media file (.wmv, .wma, .asf), QuickTime video (.mov, .qt, .mp4, .3gp), MPG file, video from DVD and VCD (.vob, .dat). You can create and skin the flash video player to make the video match your web page.
