**Moyea Flash Video MX Std** can help you to publish your videos to your website or blog with a free customizable web FLV player. In addition to converting video (including FLV) to Flash (SWF) and Flash video (FLV with the latest F4V and H.264 codec) this program provides a Flash player with various skins, dazzling video effects, subtitling, and a large variety of video compression and audio settings. It is enhanced by H.264 video encoding for bandwidth saving and buffer time reduction, F4V video encoding for a higher quality, cue points for events and navigation, video cropping and trimming for specific video dimensions and clips. Flash Video MX Std will make it easy for you to add video to the web!
