Combining Moyea Video to iPhone Converter and Moyea Blu-Ray Ripper together, it supports direct conversions from various popular video formats, DVD and Blu-Ray DVD to MP3, MP4, AAC, M4R, MOV etc for iPhone users to enjoy movies and songs more freely. It also could directly assist you with the conversion of protected DVDs and Blu-Ray DVDs. **Moyea iPhone Converter Ultimate** can extract files directly from DVD and convert them in batch. It also provides various editing options for you to customize output files.

Key Features

Convert different video formats to playback on iPhone

Moyea iPhone Converter Ultimate specialize in converting video files to proper video formats to playback on your iPhone. Various formats, including AVI, RM, RMVB, FLV, TP, MKV can be directly into the proper video formats like MP4, MOV, M4V, MP3 etc.

Add video files directly from DVDs?Blu-Ray DVDs

The converter could extract files directly from DVDs and Blu-Ray DVDs?including the special protected DVDs, Blu-Ray DVDs and place them in file list for converting and editing.

Built-in codec

The program has its own built-in codec. So it will not install any other codec on your computer, which can avoid the unexpected codec problem.

Adjust video settings easily

Click settings button and you can set compression/encoder rates, resolution and frame rate of output files or a specific size of output files.

Volume setting

You could adjust the volume from 0% to 400% of the original video or DVD volume when editing it.

Various editing functions

It could perform editing of audio and video files. You could convert and output a specific time frame of video by trimming, and cut off unwanted area like black edge of the video by cropping. Also add text or image watermark to video is available. Besides you are allowed to set special effects and replace the original audio with your favorite music.

Keep Original Aspect Ratio

You are allowed to specify the size of output video and keep its original aspect ratio. So the output video will not be stretched.

Faster conversion speed

Its multi-thread encoding technology makes the conversion speed 1.5 or 2 times faster than the similar tool. Therefore, you are expected to save at least half time to convert a video file with the same size.
