If you can not import and edit your AVCHD formats like MTS, M2TS, M2T, TS in Windows Movie Maker, Sony Vegas, Adobe Premiere, etc, if you can not play MTS, M2TS, M2T, TS files shot by JVC, Panasonic, Sony, Canon, etc to your iPod, iPhone, Apple TV, PSP, Xbox, Zune, Creative Zen, cell phones, etc, if you can not upload MTS, M2TS videos to YouTube, Yahoo, Myspace, Google, etc for sharing, please convert it, using this powerful and reliable Moyea MTS/M2TS Converter.

This program allows you to convert AVCHD formats like MTS, M2TS, M2T, TS to MP4, MPG, MPEG, WMV, AVI, MKV, VOB, DVD, FLV, SWF, H.264, MPEG-4, etc with really high quality and super fast speed. You can also use this MTS/M2TS Converter to do some editing jobs like trim, cut, remove interlaces, replace audio and more.

What's more, Moyea MTS/M2TS Converter supports batch conversion, merging files, extract audio from video, capture screenshots, pre-set video revolution, bitrate, framerate and so on.

Key Features

Trim, crop and replace audio

The trim function allows you to get a specific length of video accurately since its inner seek function can capture any key frame of video, while with crop, you can cut off the black edges and unwanted video area easily. Moreover, you can replace the original audio with other music or sounds you like.

Merge multiple videos

Checking the option "Merge into one file" on the main interface, you can join multiple videos into one bigger file for conversion.

Flipping video

The program supports to flip video vertically and horizontally under the Editor section. This function will be useful when you want to flip the upside-down video.

Add text, image, and video watermark

Its watermark function allows you to add different watermark types, including text, image (including GIF), and video watermark. Its video watermark function will add a picture-in-picture effect on your video.

Capture the snapshot images

You can capture the snapshots images as your wallpaper or editing elements if you like.

Optimized audio and video sync technology

The program adopted optimized audio and video sync technology, so as to output video with high quality and never let you be troubled by the audio and video sync issues.

Faster conversion speed

The built-in multi-thread encoding technology makes the conversion speed faster than ever. It is estimated that you can save at least half time to convert a video with the same size.

Built-in codec

Its built-in codec will not install any codec on your computer, so as to avoid the unexpected codec problem.
