Moyea PPT to DVD Burner Edu is a green E-learning app that creates fantastic DVD and video copies from your PowerPoint content in a few mouse clicks. With catching GUI and dual conversion capacity, the presentation-based education tool makes it easy to build SCORM-compliant DVD or video content that connects with and engages students, teachers, professors, IT professionals, and school administrators across different platforms.

Needless of bothering to any third-party burner, the PPT to DVD and video blend gives you the quickest reach to your back-to-school presentation on a big TV with DVD player, at a mini gadget supportable of video, to an amazing Mac OS without PowerPoint, and throughout the entire Internet hosting videos. Integrate technology to your class and inspire creativity with this ingenious PPT to DVD Edu Edition!

Key Features

Create HD-DVD Courses from PowerPoint

Moyea PPT to DVD Burner Edu Edition makes it possible to burn a PowerPoint course onto a capable DVD disc that is cross-platformed and data-protective and can be played on a HD TV hooked with a DVD player. From a school desktop to a home laptop, you can teach or learn even without PowerPoint.

Convert PPT Course to 12+ Video Formats

Turn a dynamic e-Learning presentation to 12 more video formats, e.g. ASF, AVI, MPEG, FLV, MOV, MP4, DV, DAT, TS, VOB and WMV. By end device, the educational app extends a course slideshow to a hot portable like iPod, iPhone, Blackberry, Pocket PC, Zune, to a social network site like Facebook, YouTube, MySpace, a teaching blog or a learning podcast.

Cool UI with A Balmy Back-to-school Sense

Green is today's technology. And green makes the stylish skin of this back-to-school app. With the smart DVD moviemaker and video creator, take off your first DIY experience of a back-to-school DVD movie, or even a class game video, in such a balmy atmosphere of summer vigor.

Seven School-themed DVD Menu Templates

Different from its two brothers Pro and Lite of the PPT to DVD Burner family, the educational edition displays a distinctive school genre in Menu, i.e. menu templates you would love to frame your DVD slideshow when playing on a big TV screen. The DVD menu themes include 7 - Classroom, Homework, Library, Playground, School, Student and Teacher.

Chapter Mode I: One Animation One Chapter

The e-Learning program offers two special chapter modes for a DVD slideshow. One is "One

Animation One Chapter", meaning the amount of chapters equals that of animations in the same slide. It is a great convenience for teachers, professors and students to emphasize a point in their presentation.

Chapter Mode II: One Slide One Chapter

The other chapter mode in the PPT to DVD Edu is "One Slide One Chapter", a concise scheme that cuts unnecessary repeats in a DVD slideshow. If multiple animations exist in a certain slide, only the first one will be active. It is to meet your need of simplicity in a DVD course.

Personalize DVD/Video Course by Watermark

Personality is embodied by the Logo feature, or Watermark function. The PPT to DVD Burner Edu provides an ease to brand or protect a DVD/video presentation with your unique logo, showing a personality while preventing from piracy.

Built-in Burn Engine to Save DVD Right to Disc

Embedded with a built-in burn engine, the PowerPoint to DVD Edu enables teachers and students to burn a class presentation right to a DVD disc, without bothering to any third-party burner. Highly compatible, it applies to almost all versions of Windows OS from 2000.

Retain Animations, Transitions, Sounds & More

Sounds don't work on another PC? The PPT to DVD Edu would relieve you from that trouble! Strong synchronization capability in the e-Learning app promises you a loss-less DVD/video slideshow, not to miss any part from an original presentation including sounds, animations, movie clips, transitions and internal links.

Record Author Narration to DVD Course Show

A sound recorder in the Music Tab gives you a comfort to add in your very voice as narration for the output DVD course slideshow. Make up your tone to attract your audience even if you forgot doing that in previous PowerPoint!

Random Insertion of Sound Tracks & Pictures

Beautiful pictures, pleasant sounds. That is probably true with the featured Music and Video Layout in the PPT2DVD Edu, which allows a random insertion of sound tracks and picture files as your e-Learning DVD/video background.

Convenient Customize to Drill Computer Skills

The PowerPoint to DVD Edu could neither ignore a creative brain or a careless mind. For those who want to show a programming genius at video creation, and those who need a change in slide name or transition or thumbnail, they can find a satisfaction with the "Customize" feature in both slide and profile.

Batch Process Up to 12 PowerPoint Course Files

Moyea PPT to DVD Burner Edu supports all types of PowerPoint files (e.g., PPT, PPS, POS, PPTX, PPSX, POTX), and processes a batch of up to 12 course files per conversion. A great save of time and energy to you busy faculty and staff.
