Moyea Video Converter is a powerful and reliable program. Support to convert almost all video, audio and images files like TiVo, FLV, F4V, TOD, H.264/AVC, MPEG, MPEG-2, MPEG-4, AVI, WMV, MKV, MOV, MTS, M2TS, MOD, AAC, AC3, JPG etc. With it, you can convert all videos, audios to your portable devices like iPod, iPhone, iPad, Nexus one, iRiver Smart HD, Droid, Palm Pre, PSP, PS3, Xbox, Zune, Creative Zen, cell phones, Archos, Sansa, etc for playing. You can merge files to only one, convert videos in batch, trim video length, crop unwanted area in the frame, add watermark for logo, adjust effect, removing image noise and interlace, replace the original files' audio, flip original video vertically or horizontally. You can also enjoy the perfect audio and video synchronization and super fast conversion speed.

In addition, you are allowed to convert HD, AVCHD videos like M2TS, MTS, M2T, TOD, MOD, TP, EVO, etc from digital camcorders JVC, Canon, Panasonic, Sony, etc to Windows Movie Maker, Sony Vegas, Adobe Premiere, etc for further editing; or insert to PPT for presentation; or even upload to YouTube for sharing.

Key Features

Intuitive interface

With its easy-to-use intuitive interface, you can easily find any options you need to edit and convert the videos to the format you want.

Optimized audio and video sync technology

The program adopted optimized audio and video sync technology, so as to output video with high quality and never let you be troubled by the audio and video sync issues.

Faster conversion speed

The multi-thread encoding technology makes the conversion speed 1.5 or even 2 times faster than its competitors. That is to say, with this faster conversion speed, you can save at least half time to convert a video with the same size.

Trim and crop video

The trim function allows you to get a specific length of video accurately since its inner seek function can capture any key frame of video, while with crop, you can cut off the black edges and unwanted video area easily.

Merge multiple videos and replace original audio

You can join multiple videos into one bigger file for conversion, as well as replace the original audio with other music or sounds you like.

Add text, image, and video watermark

Its watermark function allows you to add different watermark types, including text, image (including GIF), and video watermark. Its video watermark function will add a picture-in-picture effect on your video.

Capture the snapshot images

You can capture the snapshots images as your wallpaper or editing elements if you like.

Green codec environment

The program provides you with green codec environment because of its built-in codec. That is to say, it will not install any codec on your computer, which will avoid the unexpected codec problem.

System Requirements
