Need4 YouTube to iPod Converter is highly popular software to download and save videos from YouTube to iPod. Just add as many links with your favorite YouTube videos as you wish and hit 'Convert'! Need4 YouTube to iPod supports all types of video iPods, allows to save videos from the most popular video-sharing websites and provides the best conversion speed ever!

Key Features

- Download and convert videos from YouTube, Google and other popular video-sharing sites with just a click of the mouse.
- Use Need4 YouTube Converter as flv to avi, flv to mpeg, flv to 3gp, flv to wmv converters. Need4 YouTube Converter supports all popular video formats: flv, avi (divx, xvid, etc.), mpeg4, 3gp (GSM), 3gpp (CDMA), Quick Time (mov), wmv.
- Convert YouTube movies for iPod, iPhone, PSP, Zune, Blackberry, cell phones, other portable media devices without any advanced knowledge about video formats just using ready-cut presets.
- Convert as many videos from different video-sharing sites as you wish during one session. Automatically insert URLs from supported video sharing sites - just copy the link of a video and it will be automatically added to the link field of the program.
- Add, preview, rename, stop, and delete converted videos - so you can fully control the process of downloading and saving.
- Need4 YouTube Converter provides you with the highest converting speed ever due to multithreading and batch conversion!
