Pavtube HD Video Converter allows you to edit and convert HD video formats from HD camcorders or DVs (like JVC, Panasonic, and Cannon) to other formats including MP4, 3GP, AVI, MPG, MPEG-4, FLV, MOV, 3G2, VOB, MP3, FLAC, MKA, OGG, WAV, AC3, M4A etc. so that you can enjoy the HD videos on portable devices like iPod, iPhone, iPhone 3G cell phones, Apple TV, PSP, BlackBerry, Creative Zen, iriver, Zune, etc. on the go.

With Pavtube HD Video Converter, you can :

- Edit the HD videos from your camcorders or DVs.
- Add different watermarks like text, video and images to your HD videos for special use.
- Convert HD videos 1.5 or 2 times faster than similar tools.
- Output better video without any audio and video sync issues.
- Enjoy HD videos from your camcorders or DVs everywhere with your portable devices like iPod, iPhone, Blackberry etc.

Key Features

Optimized audio and video sync technology

The program adopted optimized audio and video sync technology, so as to output video with better quality and never let you be troubled by the audio and video sync issues.

1.5 or even 2 times faster conversion speed

The built-in multi-thread encoding technology makes the conversion speed faster than ever. It is estimated that you can save at least half time to convert a video with the same size.

Trim and crop video

Trim function allows you to get a specific length of video accurately; while crop can help you cut off the black edges and unwanted video area easily, so that you can enjoy a wider screen on your portable devices like iPod, iPhone.

Merge multiple videos and replace original audio

Check the option “Merge into one file”, you can join multiple videos into one bigger file for conversion. Meanwhile, if you like, you can also replace the original audio with other music or sounds you want.

Add text, image, and video watermark

Its watermark function allows you to add different watermark types, including text, image (including GIF), and video watermark. Its video watermark function will add a picture-in-

picture effect on your video.

Capture thumbnails

The program provides you the snapshot function, which allows you to capture the thumbnails as your wallpapers or editing elements for future use.

Customize profile list and format

The upgraded Profile Manager allows you to arrange the profile list as you like. Hide the unwanted formats profile list and save customized format to Custom group for ease of use.
