Pavtube Video to 3GP Converter focuses on the solution to watch the movies and various videos on **cell phones**. It is an easy to use, powerful and affordable application tool, which can convert most popular formats to the formats that cell phones support. The input formats contains most popular formats: WMV, ASF, WMA, AVI, RMVB, RM, RA, MOV, QT, MP4, H.264, M4V, 3GP, 3G2, DAT, MPG, MPEG, MP3, VOB, DV, and the output formats are supported by cell phones including 3GP, 3G2, MP3, AAC.

The super conversion speed and the brilliant conversion quality are beyond your imagination! In addition, you can custom the videos by trimming and cropping to gain your favorite videos. If you want more controls on the videos, the advanced settings are your best choices, adjust the parameters such as bit rate, frame rate, video size, join multiple files into one, and so on.
