Watching DVD movies on **Pocket PC, Smartphone, Portable Media Center, Palm, Archos, Creative Zen**, and the likes is possible now. The Pocket DVD Studio makes it so convenient to put movies, TV shows and other videos in the palm of your hands, enabling you to watch them anywhere and anytime. This software provides you with an **user-to-friendly interface** to record video files (wmv, avi, mpg, mpeg, rm, rmvb, Tivo2go, dvr-ms, mov, etc) and DVDs into portable format (wmv, avi) playable on your device. Any DVD movie less than 3 hours long can be compressed into a 128MB/256MB or onto a larger memory card. This is another good reason to justify the purchase of your favorite handheld device. Discover the **Pocket DVD Studio magic!**

### **key Featrues**

#### **Better quality with blazing fast speed**

Incorporates the world's fastest recording technique and provides better video quality.

Pocket DVD Studio's 1-pass recording provides better quality and runs at 3X speed of other products.

Pocket DVD Studio's 2-pass recording provides far better quality and runs at 1.5X speed of other products.

#### **Best DVD Compatibility**

Works for all DVD titles including those titles on which other products will fail or have audio problems (e.g. audio cut-out every a few seconds is quite common when using other DVD ripper).

#### **Intuitive design, what you see is what you get**

Support smooth aspect ratio control and cropping in both preview and recording mode. Can remove movie black bars completely (works for all DVD and existing media files). Use range bar to set start and end points for recording.

#### **Easy to get started**

Play DVD or other media files in "Pocket DVD Studio". Then click "Start Recording". That's it.

#### **And power features for expert as well**

Allow you to change codec, various audio, video, DVD setting, increase brightness and audio volume, support both WMV and AVI (Xvid/DivX) output, split video file to fit on several memory cards, etc. All these are easy to use and easy to test. A beginner can get started easily and become an expert soon with the help of an intuitive, friendly user interface.

### **System Requirements**

This software runs on PC (Microsoft Windows 98/ME/NT/2000/XP) to record video into

---

portable format. (No Mac OS version has been planed yet).

The software requires a DVD-ROM, a DVD player software installed in your PC (e.g. WinDVD,PowerDVD).

Converted movies run on all Pocket PC (Pocket PC 2002, Pocket PC 2003, Pocket PC 2003 SE), Palm devices (Palm OS 5.0 or above).

Use Windows Media Player to play WMV video file on your Pocket PC.

Use TCPMP to play AVI(XviD/DivX) video files on your Pocket PC, Smartphone. Palm.
