Prism Video Converter is a powerful and comprehensive piece of software designed to help you quickly and easily convert between various video file formats with high speed and excellent output quality. It can convert video files from avi, wmv, 3gp, mov, flv and more into avi, mov, asf, wmv, mp4, 3gp and others. It can also convert DVD discs to your hard drive or compress video files to reduce size.

- Convert or compress video files within minutes of downloading
- Universal video converter supporting all popular formats
- Includes batch video converter to convert thousands of files

Key Features

Adjust video settings easily

Prism lets you set compression/encoder rates, resolution and frame rate of output files. Prism supports everything from HD to high compression for smaller files. You can even set a specific size for output files.

Direct DVD converting

Add video files directly from DVDs.

Just select the DVD you want to convert, choose the format you want to use, and then click the convert button. It's that easy!

Convert video formats

Prism converts avi, mpg, vob, asf, wmv, mp4

and all video formats that have a DirectShow based codec. If you can play the video file using Windows Media Player, you can convert it using Prism.

Preview videos before converting

Preview original videos and output results before converting.

Supported Video File Formats:

avi, asf, divX, flv, mov, wmv, mpeg, mp4,
3gp, mpeg1, mpeg2, mpeg4, m4v, vob, dvd
ogm, H.264, Xvid, and many more video formats.

Video formats supported by Prism.

System Requirements

-
- Works on Windows 7 2000/XP/Vista/2008
 - For earlier Windows versions (98, ME)
 - Mac OS X 10.4 or later
